

Multi-Channel Mass Notification for Microsoft Office 365. Application integration with Microsoft Outlook, Excel and Yammer

OFFICE 365 APP BUILDER PROFILE: POCKETSTOP

Pocketstop drives audience behavior through our mass notification and communications software. We do this by delivering action oriented notifications via text, email, voice and social. Corporations, non-profits, higher education institutions and government agencies choose Pocketstop to deliver the right message to the right people at the right time.

WHAT WE OFFER

RedFlag for Outlook add-in provides multi-channel mass notification distribution capabilities within both the desktop and web versions of Outlook. Send text, email, voice and social posts from within Microsoft Outlook. Pocketstop is the first mass notification company to provide an integrated experience for Office 365.

RedFlag for Outlook add-in improves audience segmentation without ever leaving your inbox.. Your static email lists can now be replaced with the power and flexibility of dynamic group selection. Send a message to the exact set of people you wish to reach. Common examples include region, department, job title and many more

RedFlag Subscriber Import add-in for Excel simplifies ongoing user management and is accessible from within both the desktop and web versions of Excel. Easily import and map user information without the need for external file management. Built in validation processes and reporting ensures data accuracy.

RedFlag for Yammer helps improve the effectiveness and reliability of your internal communication by combining the power of the RedFlag mass notification platform with the readership of your Yammer platform. Use RedFlag for Outlook to create and send the messages to one or multiple Yammer groups.

WHAT OUR CUSTOMERS ARE SAYING

"Using the functionality of RedFlag from within Outlook and Excel has made communicating internally much more convenient and effective." – Scott Shakespeare, General Manager, ALON Brands

Office 365 is cloud-based productivity, powered by Microsoft. You get the familiar Office applications, now always up-to-date. It brings enterprise-grade services to organizations of all sizes, from online meetings to sharing documents to business-class email.

KEY USE CASES

BUSINESS-CLASS EMAIL

Gain large, 50GB mailboxes with your own custom domain that can send messages up to 25MB in size, with contacts, shared calendars, and spam and malware protection. Available on PC, Mac, Windows Phone, iPhone, Android, and more.

CLOUD STORAGE

Get 1TB to store, back up, and share files, accessible from almost any device, and even offline.

MEET ONLINE

Hold scheduled or ad hoc online meetings for up to 250 participants, with screen sharing, audio and video, virtual whiteboards, polls, and shared notes. Anyone can participate through any HTML5 browser.

COLLABORATE, CHAT PRIVATELY

Set up a social network that helps your company stay connected, share information across teams, and make faster, more informed decisions.

SAVE YOUR COMPANY MONEY

Office 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

SCALE YOUR BUSINESS QUICKLY AND FLEXIBLY

Office 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business critical technology on up to five PCs/Macs and five mobile devices. Office 365 provides many plans to fit the right capability needs and price points for each user in your organization.

TECHNICAL SUPPORT

Your Office 365 subscription comes with 24/7 support from a global network of experts, with 1-hour response for critical, service-impacting events.

FINANCIALLY BACKED SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service level agreement.

SIMPLIFIED IT MANAGEMENT

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.
